## SUMMARY OF ENEMY SITUATION (facts)

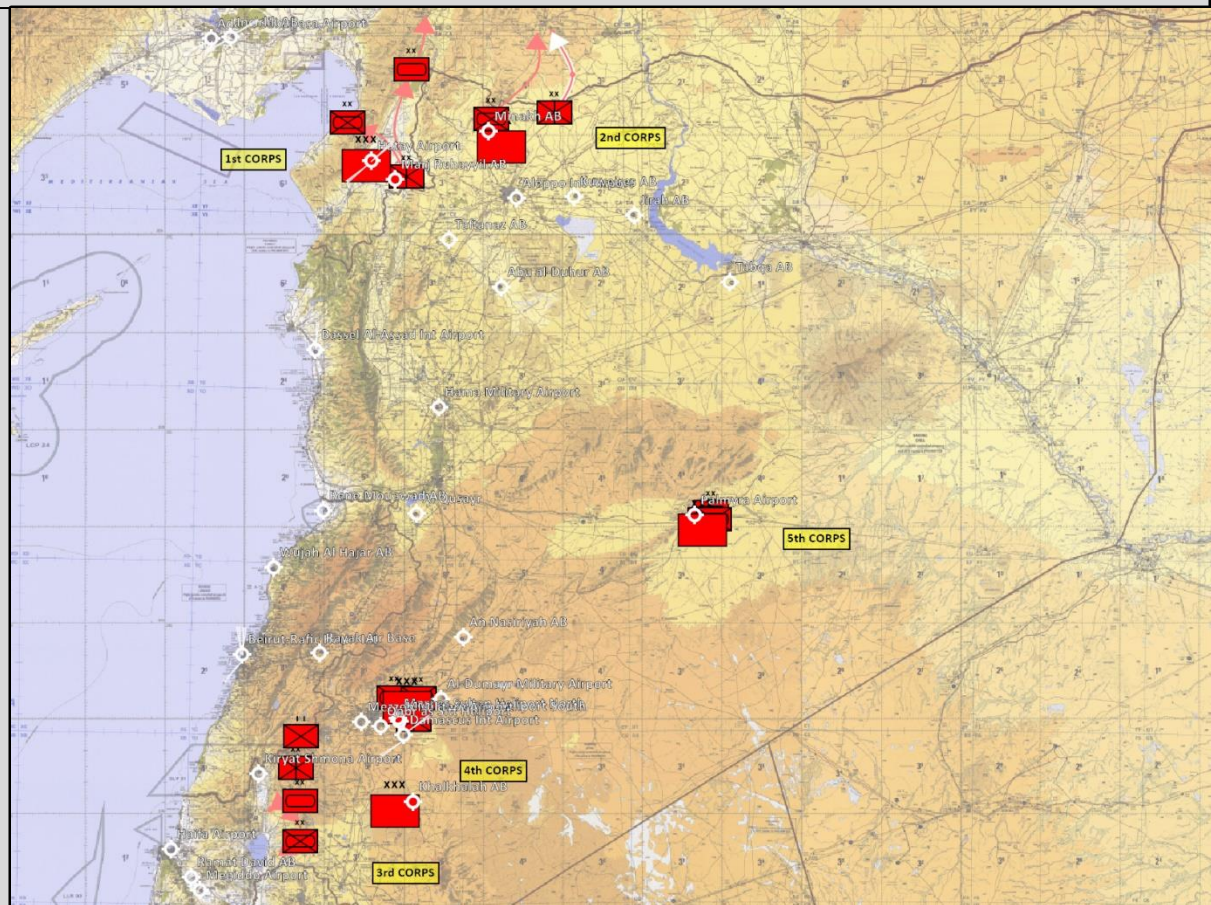

1st Corps is dug in deep in area around Iskenderun, and element of 10th Armored Division is currently spotted same latitude as Incirlik advancing and enforcing their positions.

Curently no movement of 2nd Corps as of yet.

3rd Corps is holding strong in GOLAN Heights region and are showing no signs of planning to vacate the area.

## 4th Corps is protecting Damascus

5th Corps are currently stationary however is expected to be able to move within days if needed.

## ASSESSMENT OF ENEMY SITUATION (Short term)

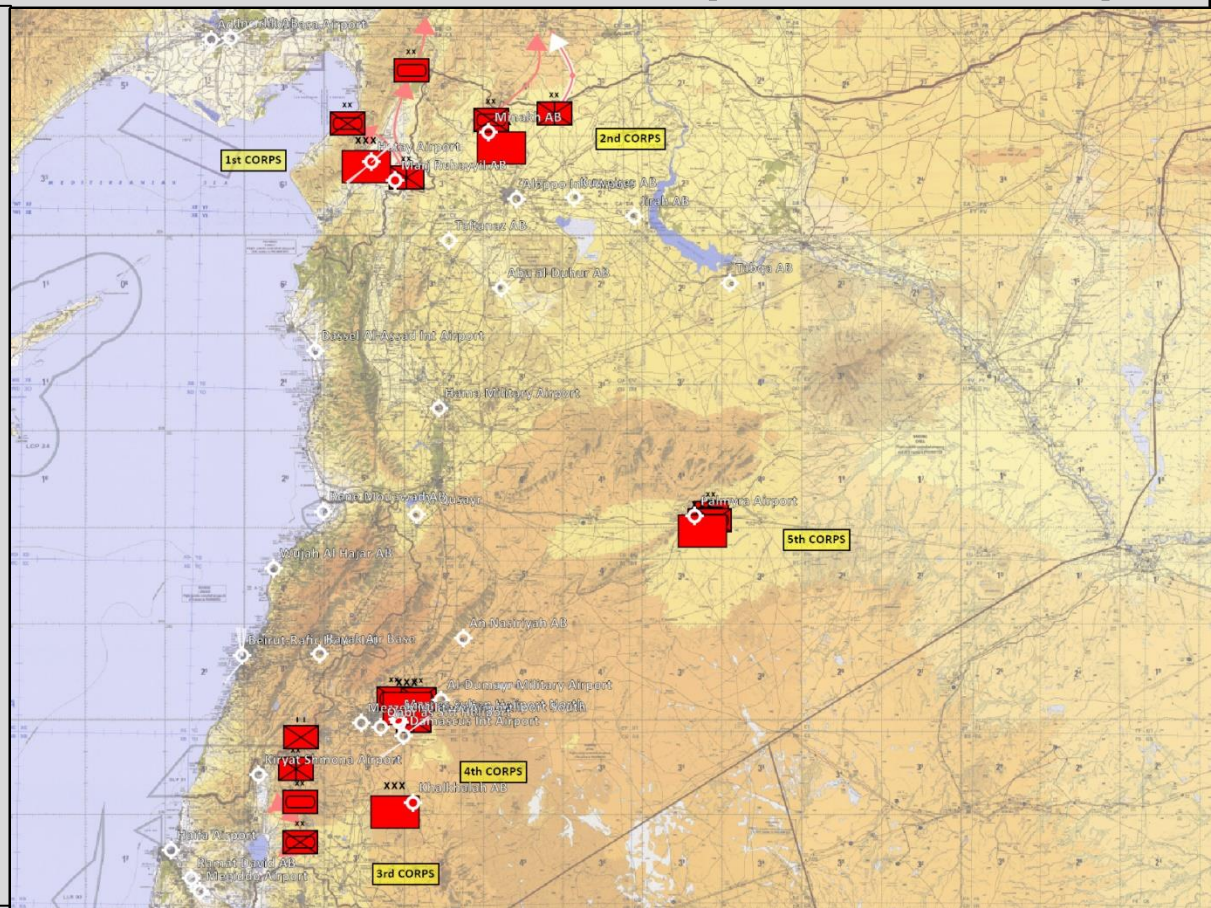

10th Armour Division is anticipated capture and hold vital crossroad between Incirlik and Gaziantep. Spearheaded platoons are very close to the crossroad.

2nd Corps is expected to hold until 10th Armour Division reaches its position.

3rd Corps will remain in a current hold waiting for the inevitable attack from Israel and it's allied. Previous indications of 32nd Motorized Division trying trying to take Kiryat Shmona Airfield seems incorrect and 32nd Motorized Division is currently dug in.

4th Corps have shown no indication of movement so far and is anticipated to stay and protect Damascus

5th Corps will continue preparing to move if needed.

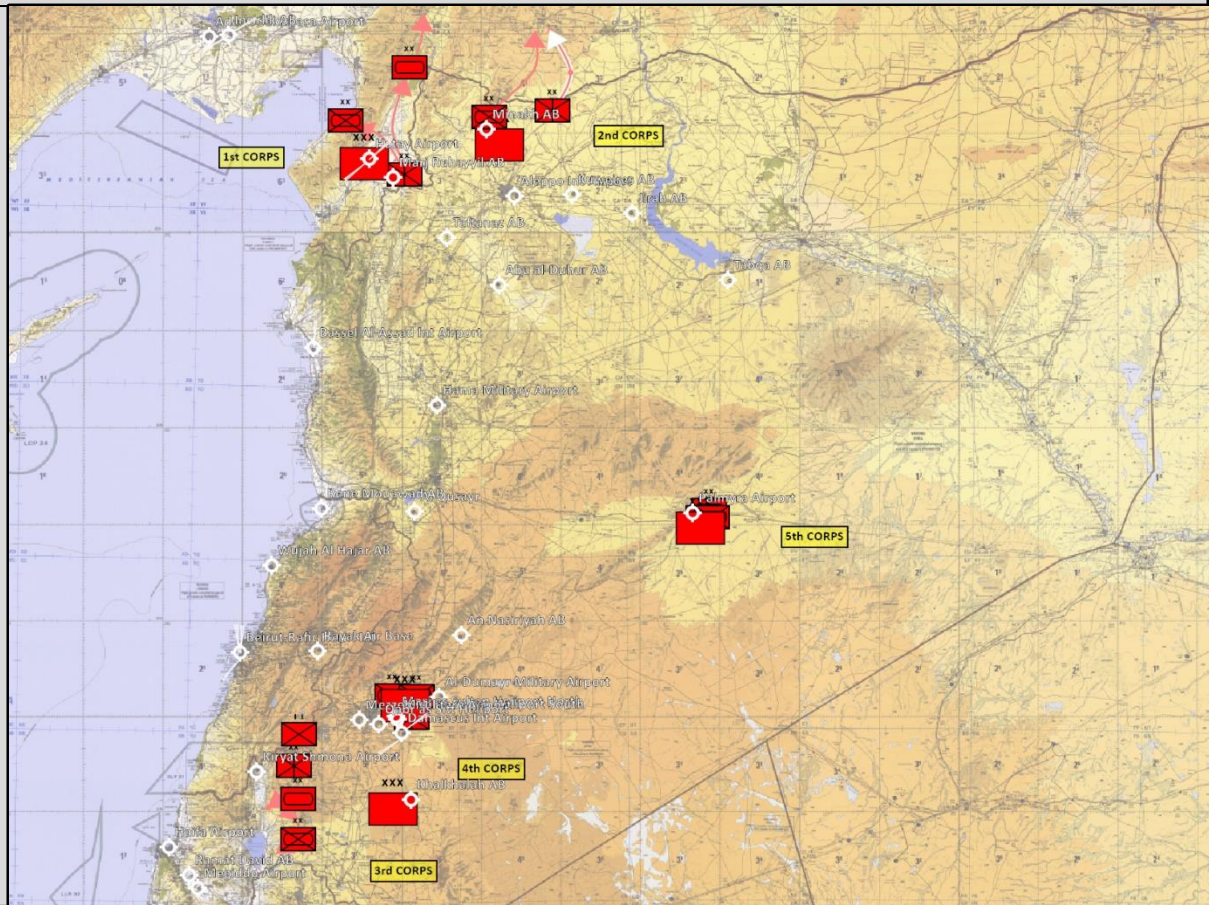

# ASSESSMENT OF ENEMY SITUATION (long term)

Long term Syria is expected to take as much land as possible to position itself as a force to be reckoned with.

It will give the country a better leverage in the future during international negotiations.
