WORD OF CAUTION - GENEVA CONVENTION!

During last engagement we have friendlies reported destroying a TIGR vehicle.

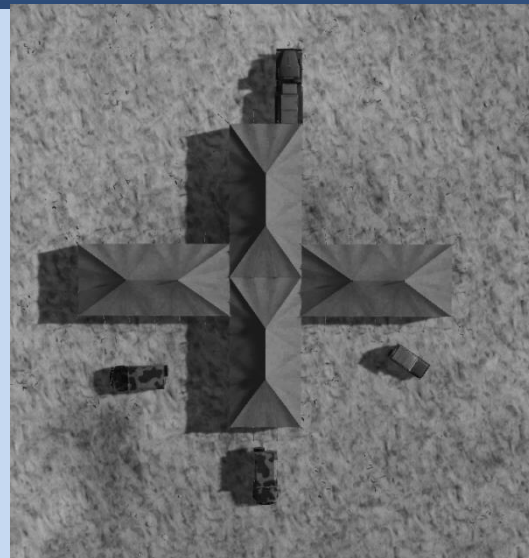

The TIGR vehicle is a wheeled vehicle similar to the one shown in picture to the right.

The Syrian Army is using this vehicle as a field **AMBULANCE**.

DO NOT UNDER ANY CIRCUMSTANCES FIRE UPON THIS TYPE OF VEHICLE as it is protected by the Geneva Convention.

Similarly the tent structure shown to the right, consisting of 4x tent are used by the Syrian Army as **FIELD HOSPITAL**.

DO NOT UNDER ANY CIRCUMSTANCES FIRE UPON THIS TYPE OF TENT layout as it is protected by the Geneva Convention.

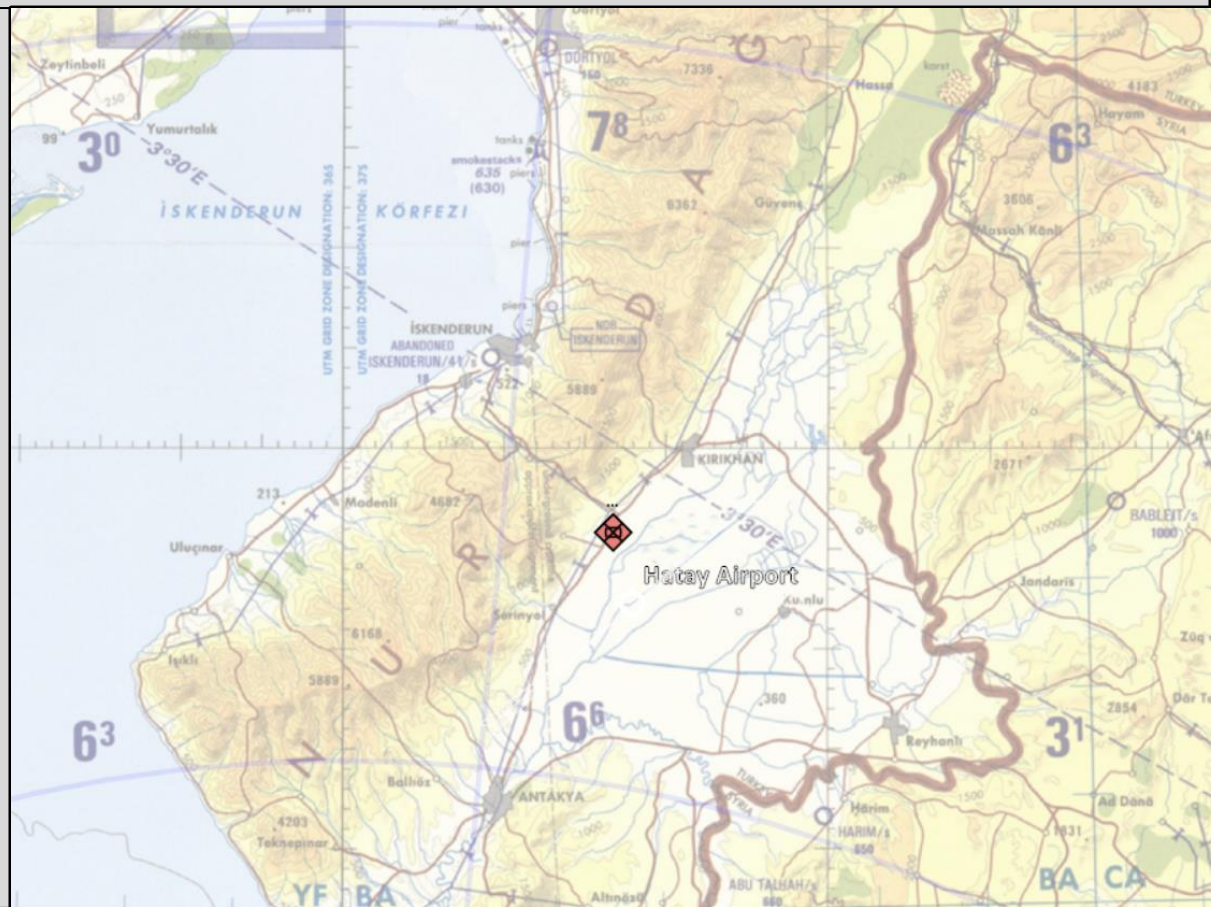

MAJOR EVENTS LAST PERIOD

Syrian 1st Corps:

Friendly A/C came into contact and engaged elements of 11th Mechanized Division as well as 10th Armor Division in the Hatay valley.

Night hampered FRN forces ability to cause significant losses to ENY forces. Only about 10 vehicles were destroyed.

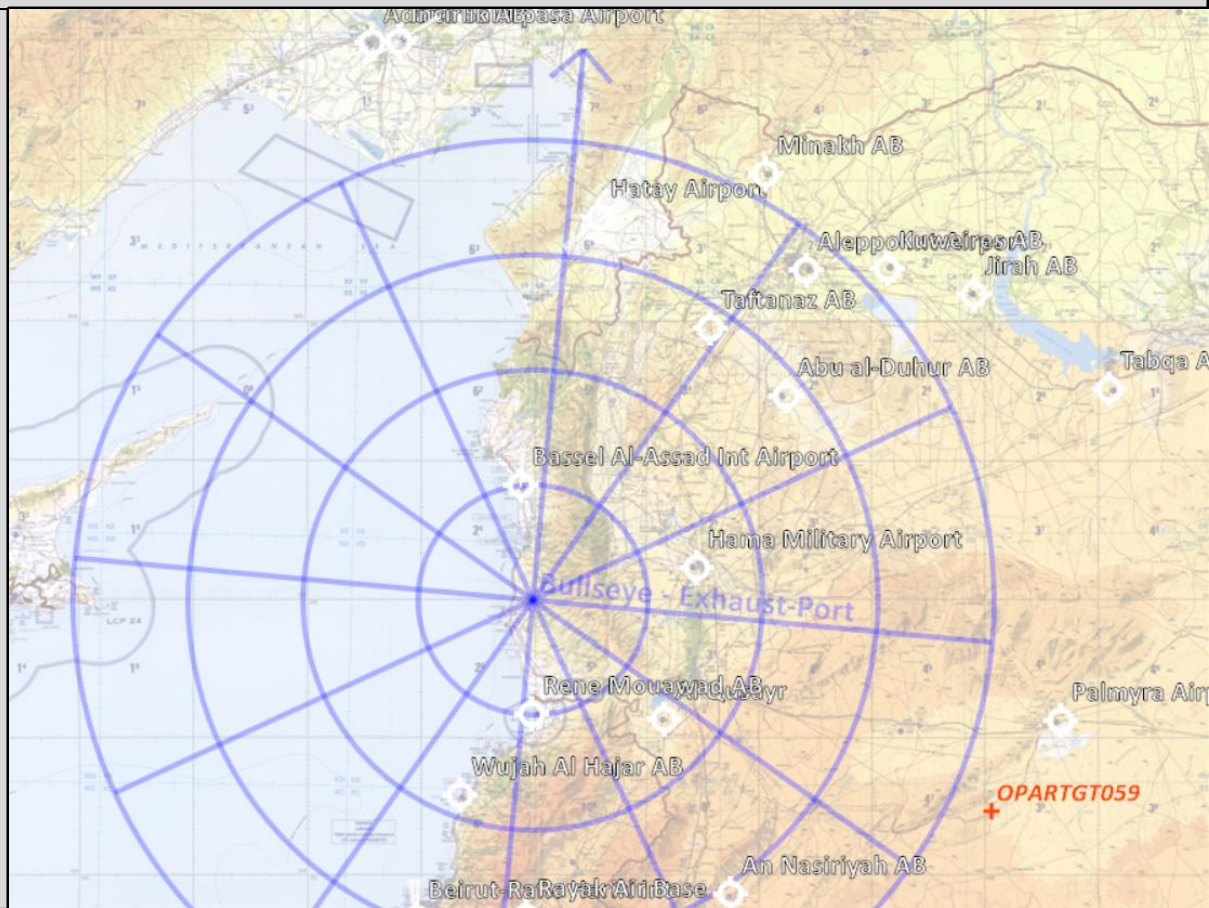

MAJOR EVENTS LAST PERIOD

Chemical Weapon –Sarqiyha Research Centre:

Deep strike mission was conducted against Sarqiyha Research Center OPARTGT059.

MAJOR INTEL LAST PERIOD

Syrian 1st Corps:

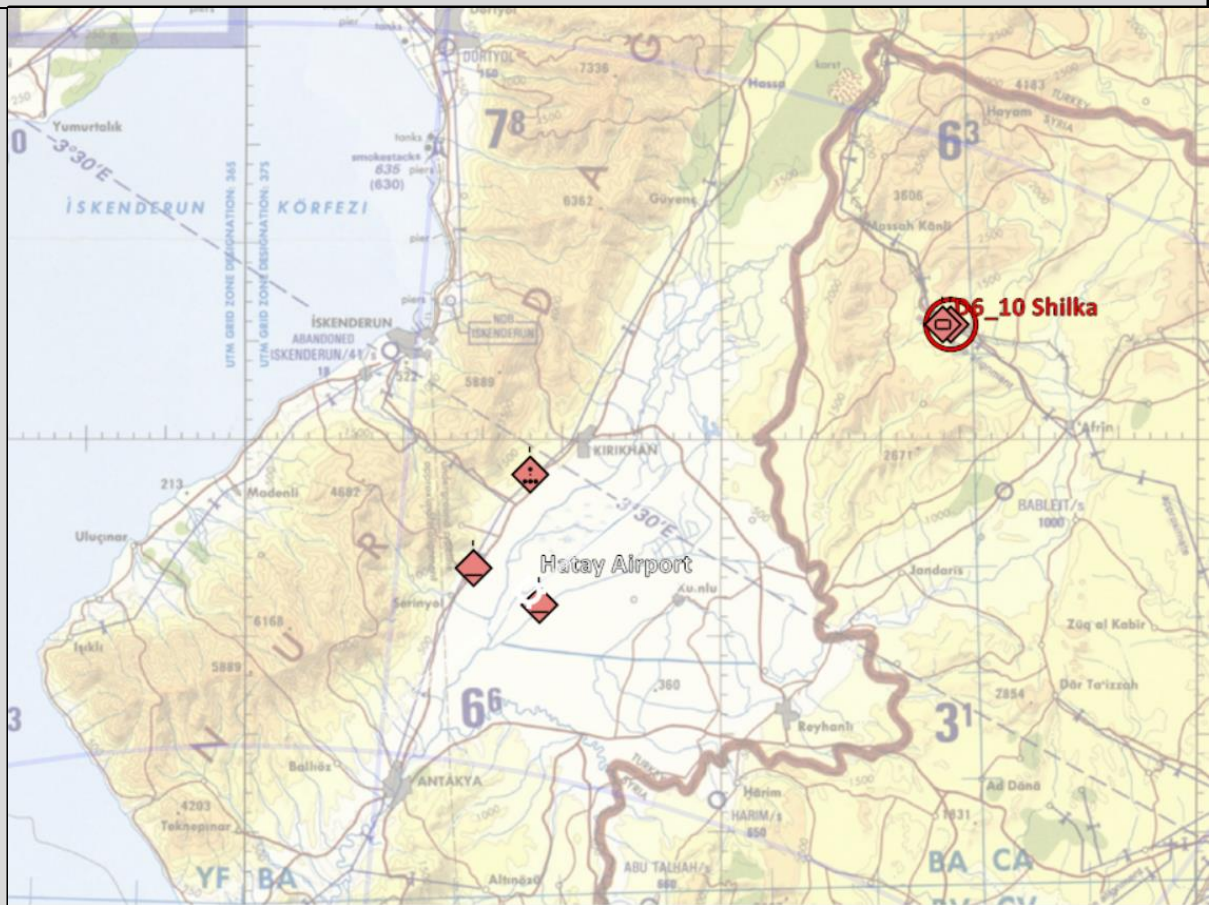

A SA-8 and a rocket artillery battalion has been spotted #12, a column of 6x supply vehicles #30 as well as a 6+ group of fuel trucks at #31.

COBRA + BEAR (helo) managed to identify 4x Arty and a Shilka #10 as well as and full strength armored company (9 units) #13.

The Intel on #13 is very interesting as ENY armor has not been spotted so far east.

2nd Corps doesn't have any armor. The located armor units is believed to 103rd Armor brigade moving into the northern part of Hatay valley.

An AR/Recce flight in the eastern part of Hatay valley will be able to shed light on the situation there.

BDA LAST PERIOD

Syrian 1st Corps:

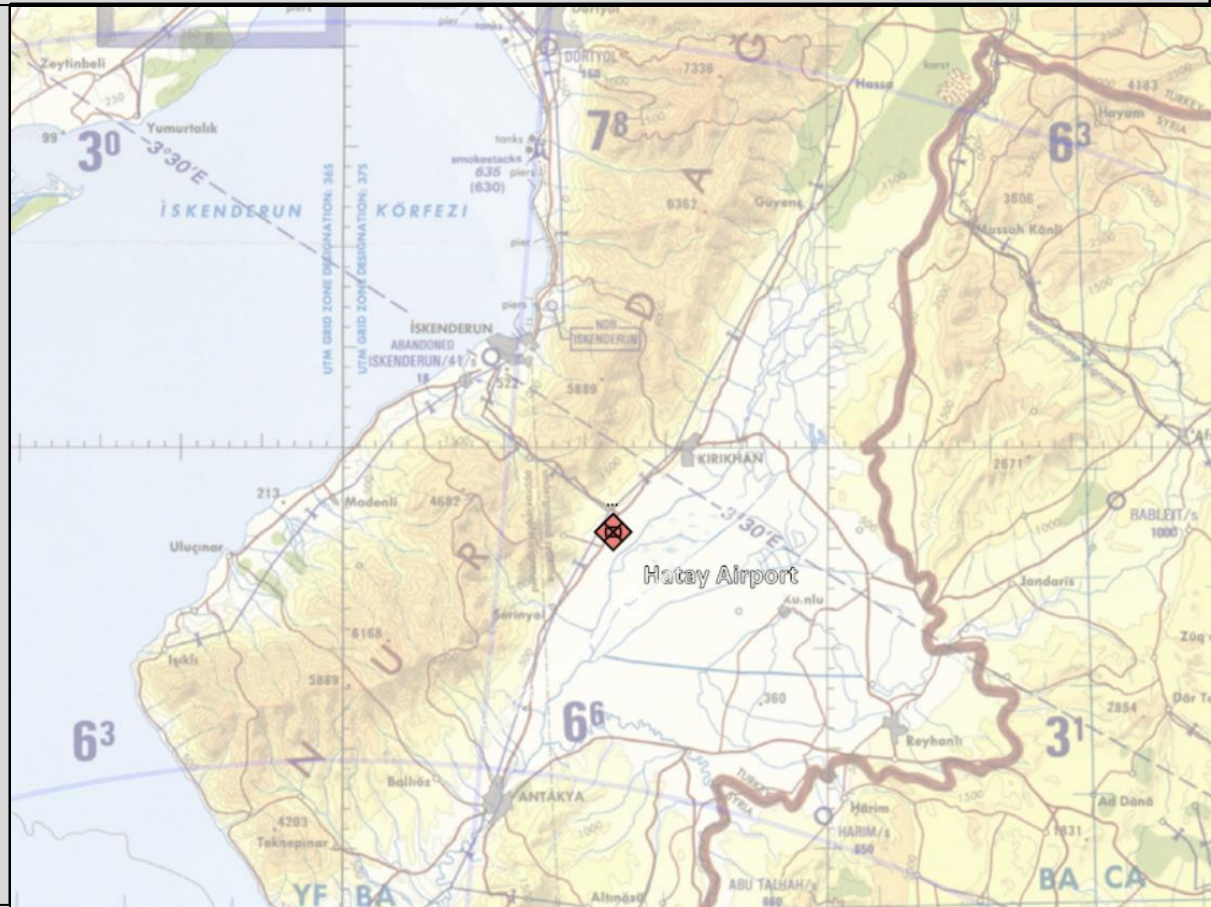

BDA:

Hatay Valley south

AXE reported destroying 3xBMP2 #8

KNIFE reported destroying 4xMBT, 4xBMP's and one supply truck, #11. Since locations of vehicles have not been reported no locations added.

MISTY didn't report any BDA despite being on station for more than an hour.

BDA LAST PERIOD

**OPARTGT059 Chemical Weapon –Sarqiyha
Research Centre :**

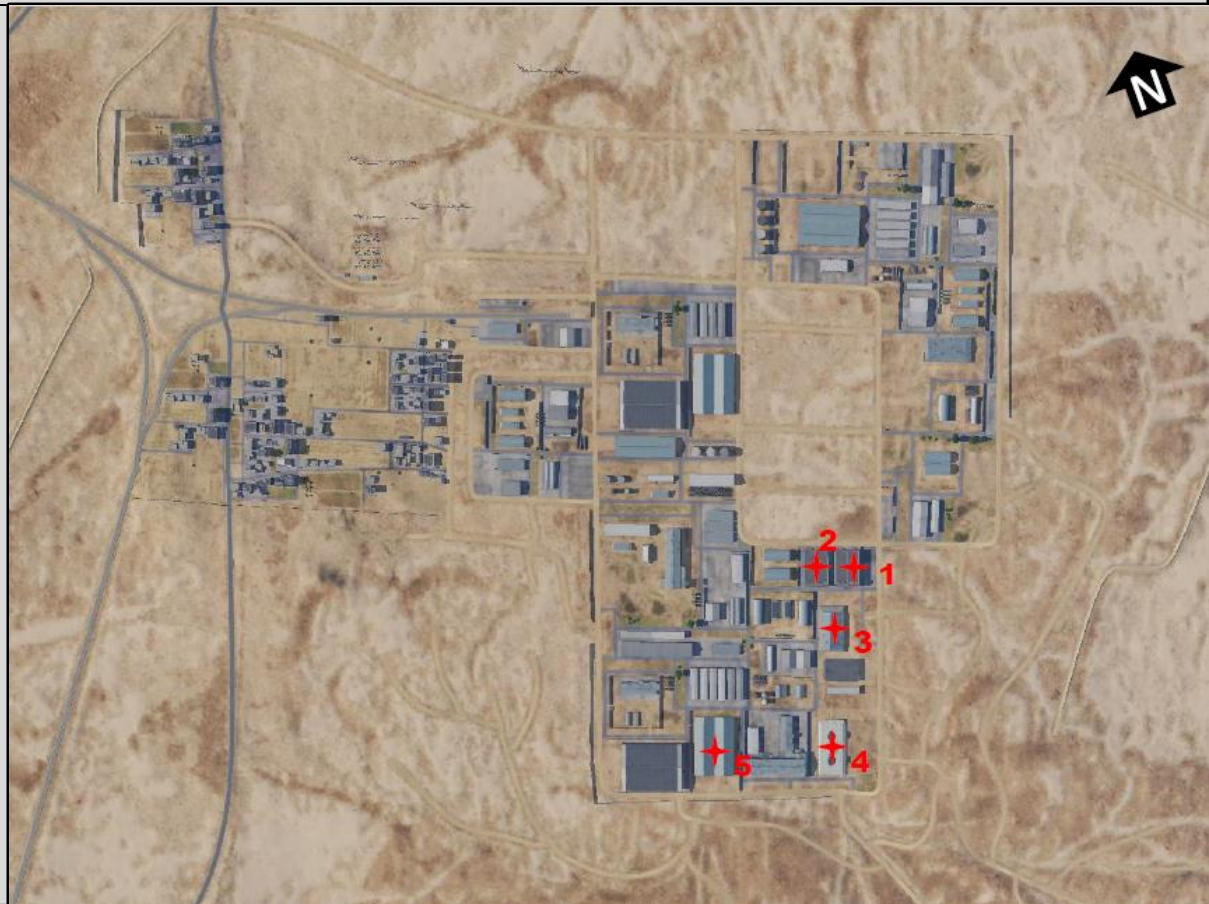

BDA:

Only OPARTGT059C (4) Chemical storage facility
was destroyed.

Remaining locations A (1&2), B (3) & D (5) has not
been confirmed hit.

It is anticipated that Syrian high command has been
alerted by the strike and will increase SAM security
for OPARTGT059.

They now also know our capabilities regarding deep
strikes, at night with little to no warning.

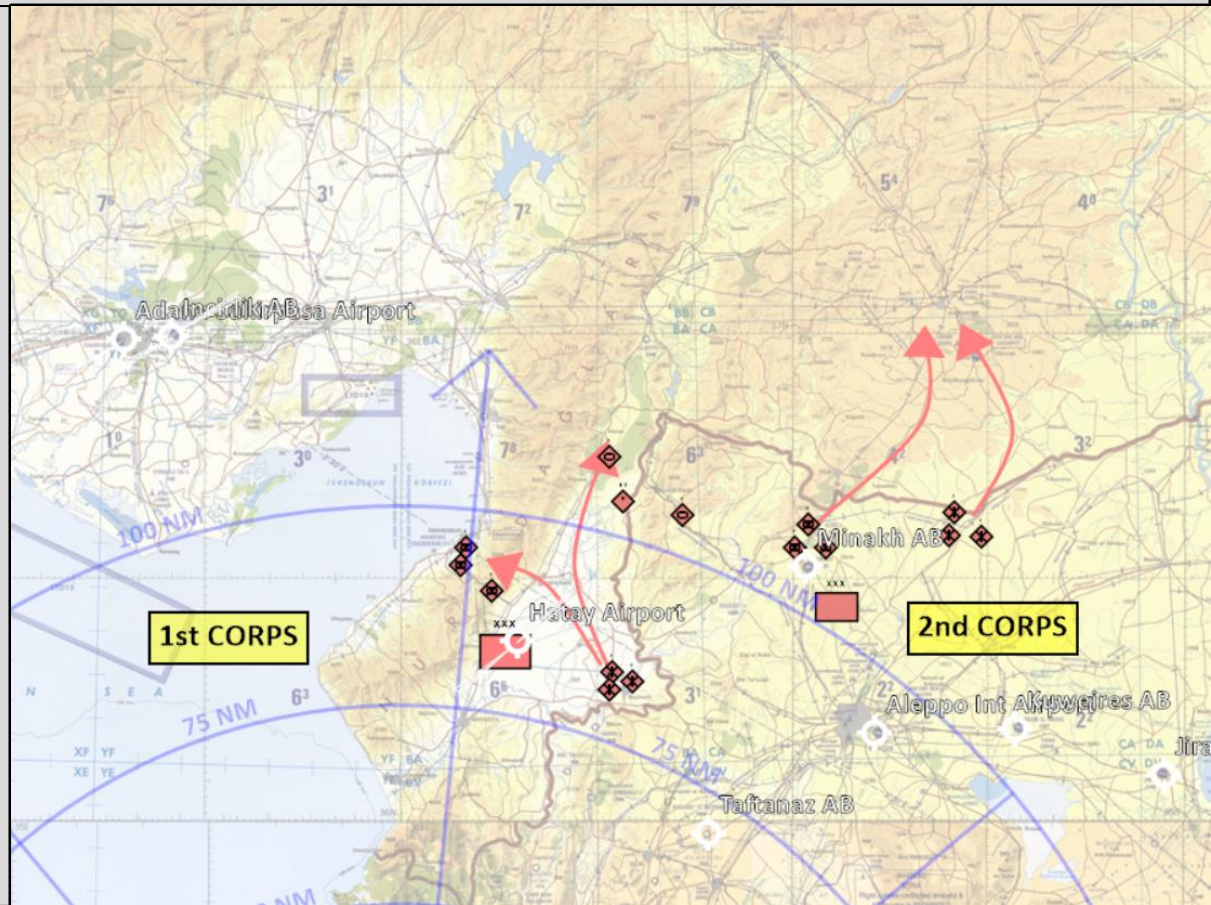

SUMMARY OF ENEMY SITUATION (facts)

They day turned out quite loss destroyed ENY vehicles thus pretty much status-qou of D+5.

The most significant INTEL is from COBRA/BEAR spotting armored units to the east of main Hatay valley probably trying to flank advancing friendly forces.

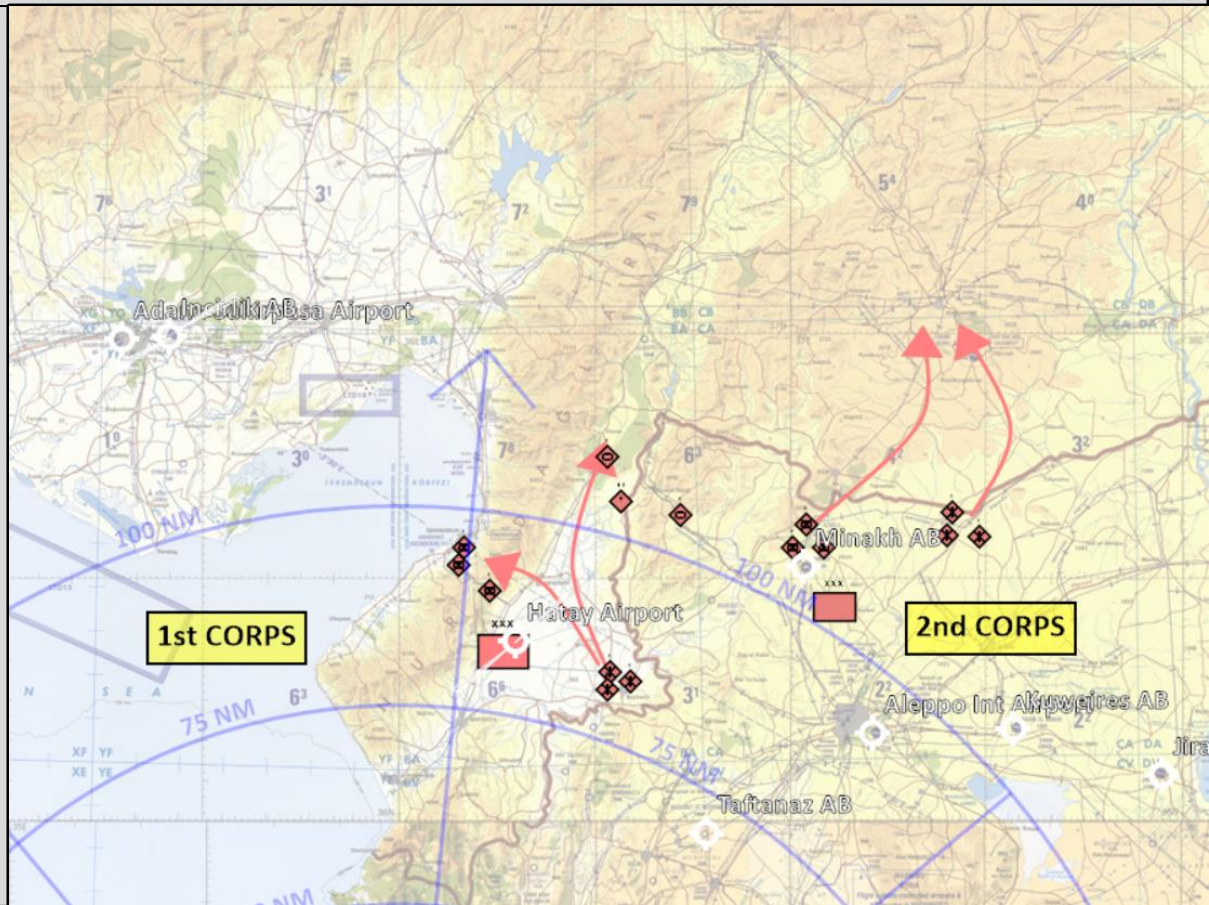

12th Motorized Division is still unaccounted for. There have been reports of BTR destroyed by friendly ground forces however non of the flights have reported any wheeled infantry so far.

SUMMARY OF ENEMY SITUATION (facts)

Currently no movement of 2nd Corps as of yet however based upon the SA-15 indications it appears both Divisional HQ are more co-located than initially anticipated.

SUMMARY OF ENEMY SITUATION (facts)

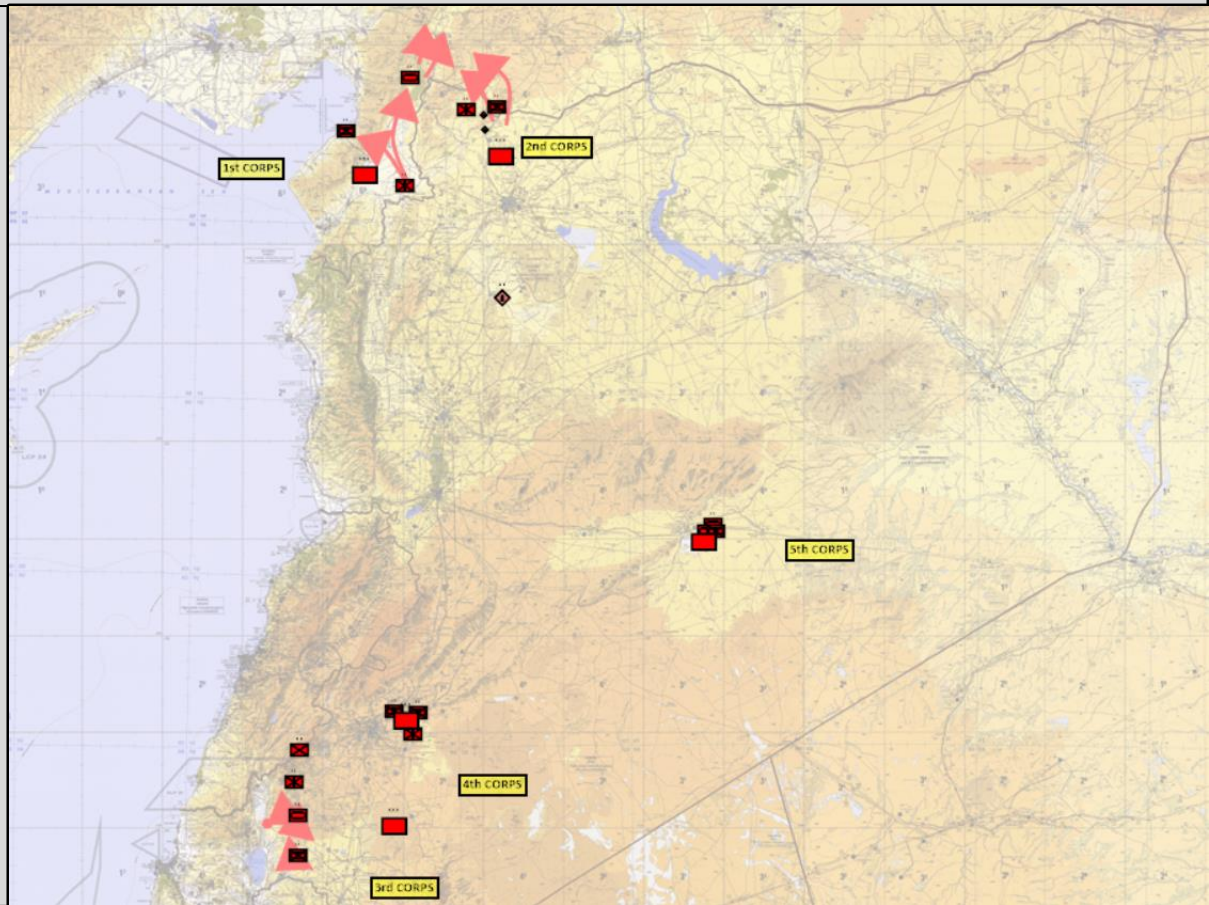

1st Corps has lost Iskenderun and are being pushed in the Hatay valley.

Currently no movement of 2nd Corps as of yet.

3rd Corps is holding strong in GOLAN Heights region and currently VIS does not hold any new intelligence of this area.

4th Corps is still believed to protecting Damascus.

5th Corps is still believed stationary however is expected to be able to move within days if needed.

ASSESSMENT OF ENEMY SITUATION (Short term)

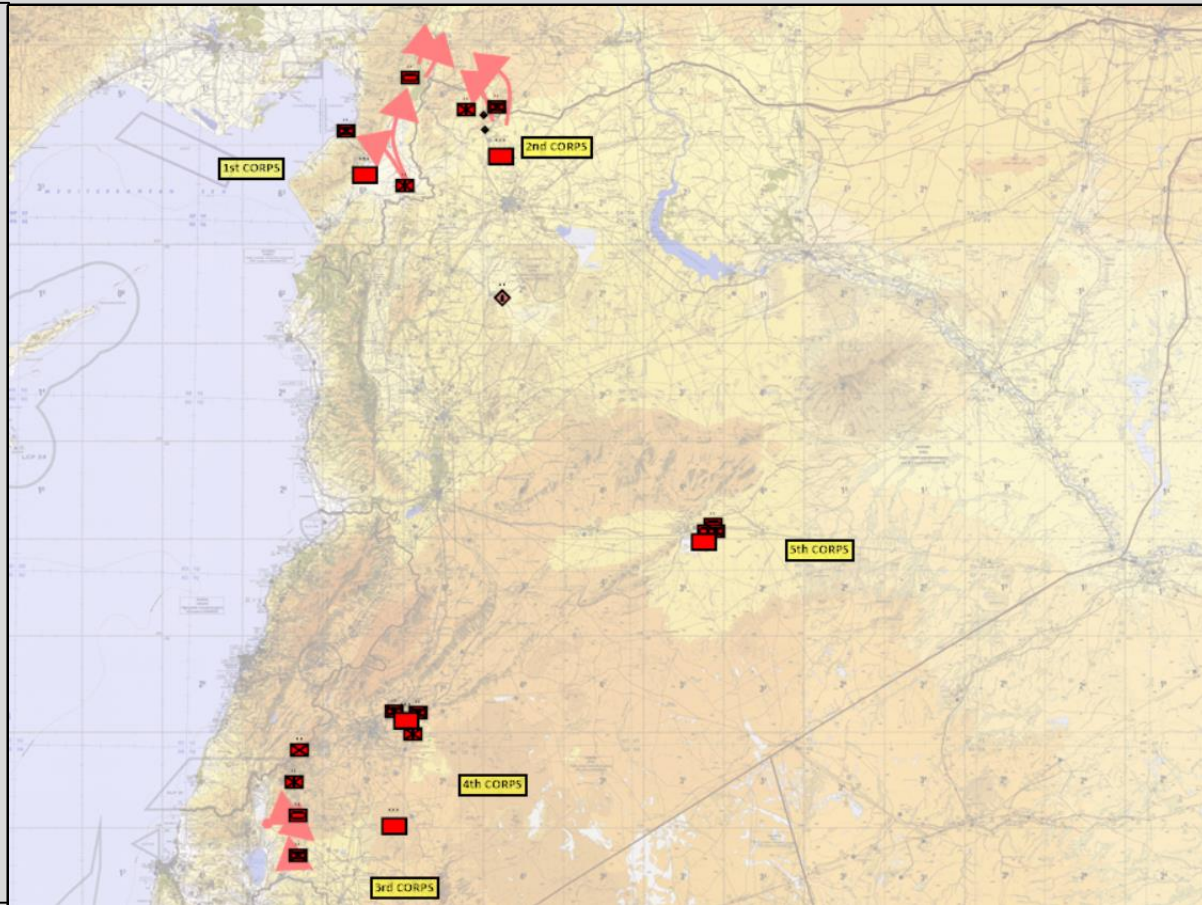

103rd armor brigade is assessed to try and flank advancing friendly forces from the eastern valley leading into Hatay valley. This may be attempt to provide 2nd Corps sufficient time to move into aid.

2nd Corps is now expected to push forward to reinforce 10th Armour Division in the Hatay Valley and/or 11th Mechanized Division in the Iskenderun area.

3rd Corps will remain in a current hold waiting for the inevitable attack from Israel and it's allied.

4th Corps have shown no indication of movement so far and is anticipated to stay and protect Damaskus

5th Corps will continue preparing to move if needed.

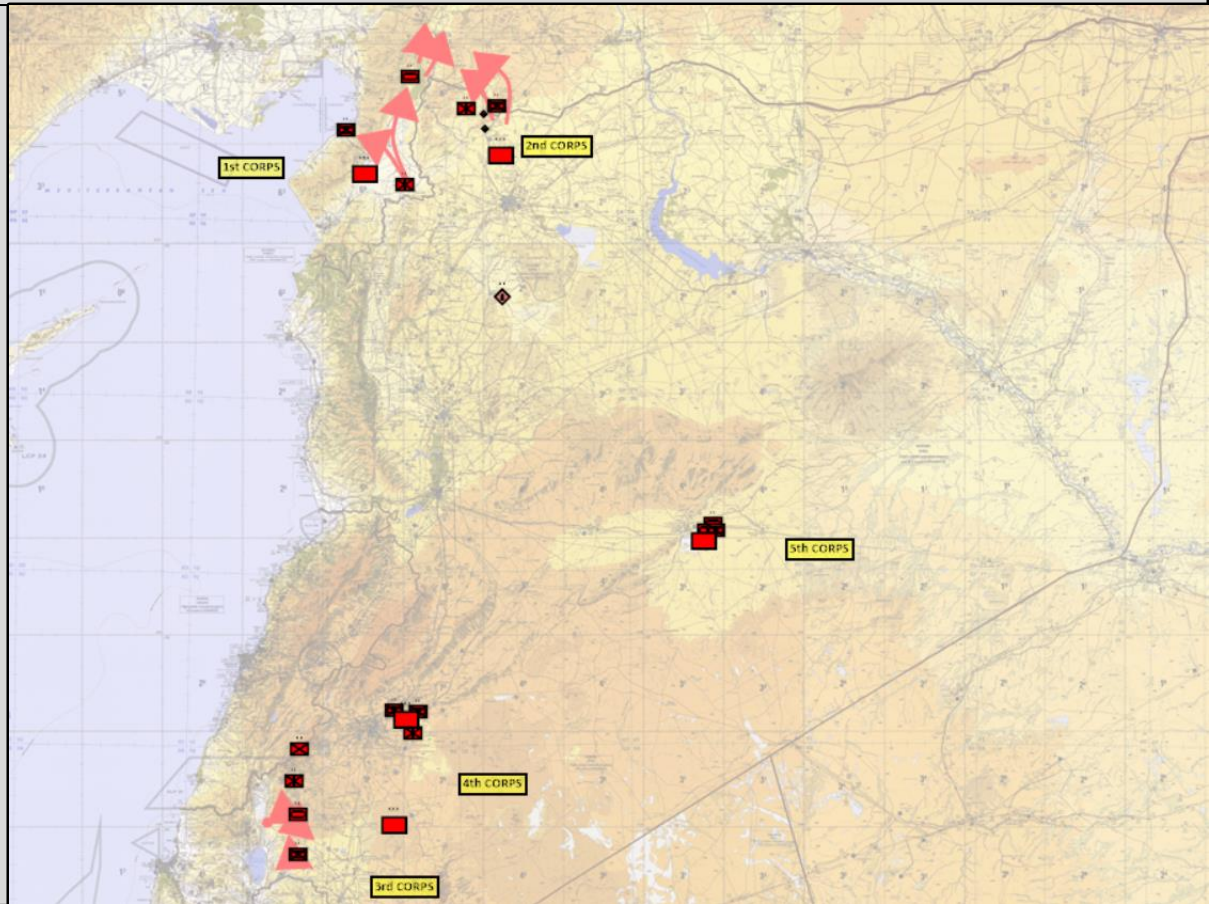

ASSESSMENT OF ENEMY SITUATION (long term)

Syria long term goal now seem less likely, is assesed they may try and hold their current ground until perhaps 5th Corps can reach the northern parts of the conflict zone.

It will give the country a better leverage in the future during international negotiations. This can be assisted by friendly forces hitting field hospitals and ambulances, which will ineventably lead to loss of internation support.

INTELLIGENCE GAPS

Any reporting of the whereabouts of 12th Motorized Division BTR's is highly valuable for VIS?

Are 2nd Corps on the move and if so which direction, north or northwest?

SA-8 units protecting rockets artillery battalions are still unlocated.

Are there any movement to positions of 4th Corps and 5th Corps and if so in which direction?
