Victoria Per Intellectum

WORD OF CAUTION - GENEVA CONVENTION!

During last engagement we have friendlies reported destroying a TIGR vehicle.

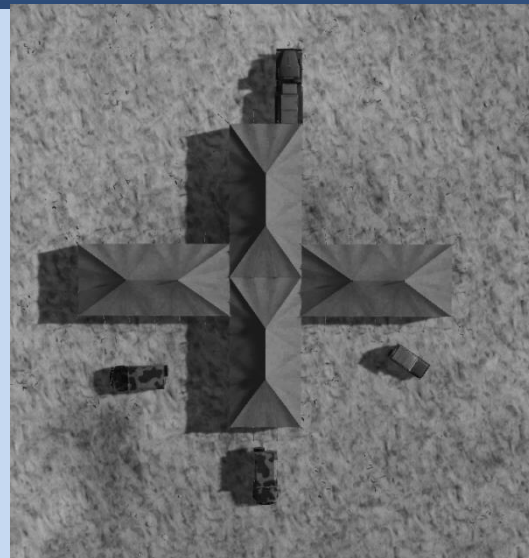

The TIGR vehicle is a wheeled vehicle similar to the one shown in picture to the right.

The Syrian Army is using this vehicle as a field **AMBULANCE**.

DO NOT UNDER ANY CIRCUMSTANCES FIRE UPON THIS TYPE OF VEHICLE as it is protected by the Geneva Convention.

Similarly the tent structure shown to the right, consisting of 4x tent are used by the Syrian Army as **FIELD HOSPITAL**.

DO NOT UNDER ANY CIRCUMSTANCES FIRE UPON THIS TYPE OF TENT layout as it is protected by the Geneva Convention.

MAJOR EVENTS LAST PERIOD

Northern front:

Allied A/C conducted attacks in KB MILLER, using ka-50'S and A-10C'S against Syrian forces.

TARGET PRIORITY:

1. LONG RANGE ARTILLERY
2. ARTILLERY
3. COMMAND AND CONTROL
4. LOGISITCAL SITES LARGER THAN COMPANY

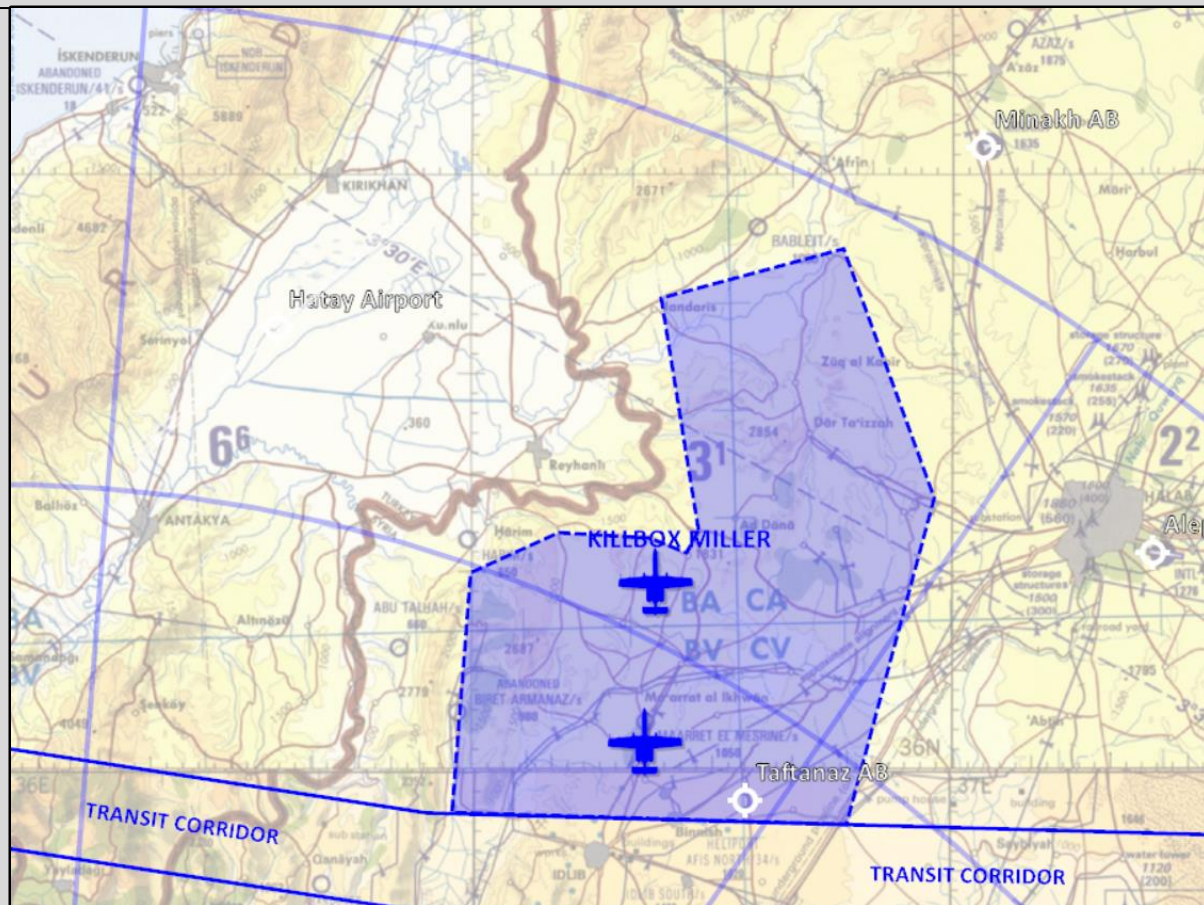

ENY suffered significant losses but the costs were 4x A-10C lost in combat, VIS only knows locations of two of the airframes.

The attack helo's managed to neutralize an astonishing amount of vehicles:

½ artillery battalion

One full motorized battalion

Field HQ

MAJOR INTEL LAST PERIOD

Northern front:

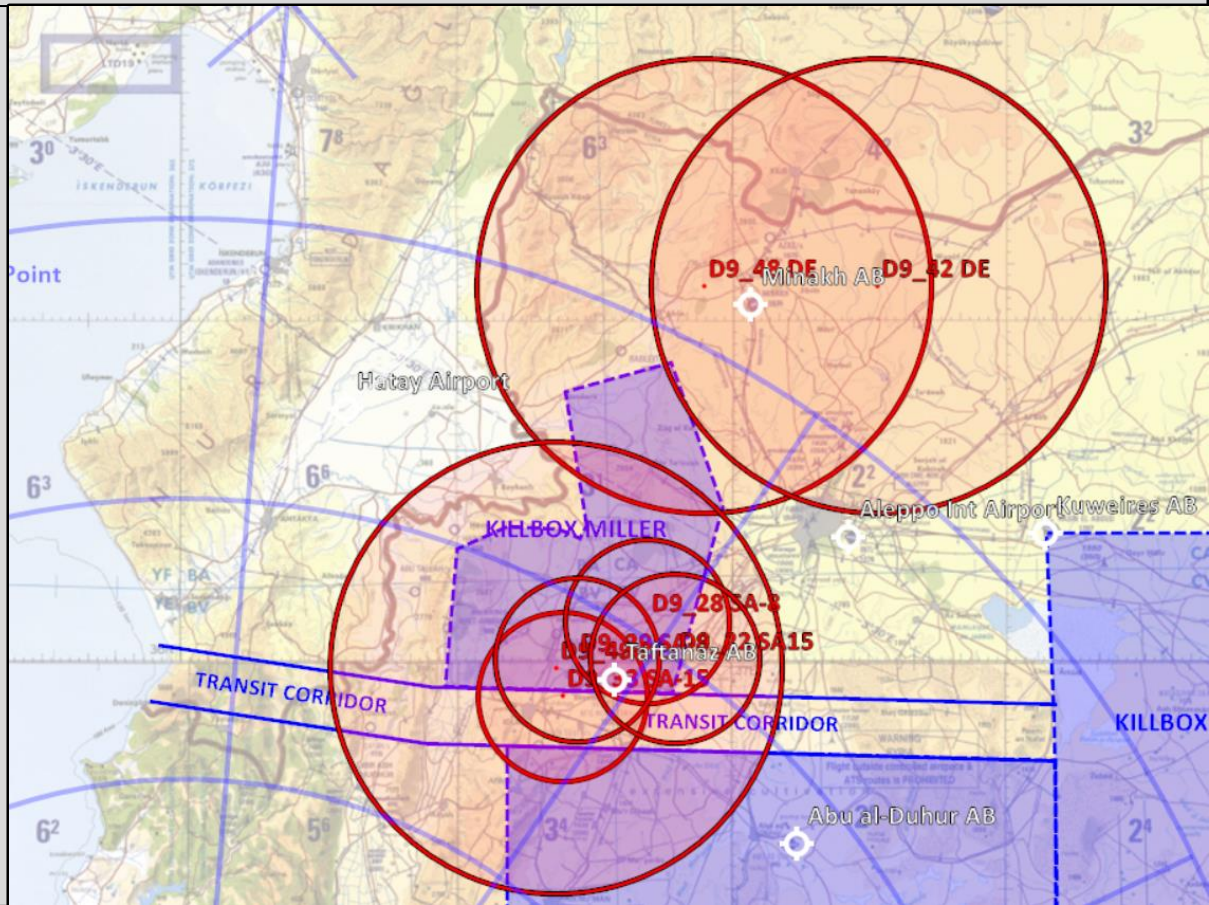

Due to outstanding airmanship one of our A/C was able to biangulate the location of 3x Dog Ear radars.

Two of these (#42 & #48) are located in the north in vicinity of Minakh AB.

The third one (#49) is located in the south of KB MILLER with additional SA-8's (#28 & #29) and SA-15's (#22 & #33) in same area.

The south eastern corner of KB MILLER (IVO TAFTANAZ AB) is of great importance along with BDA for Fields HQ (#31).

VIS believes this to be the area of 12th Motorized Division HQ.

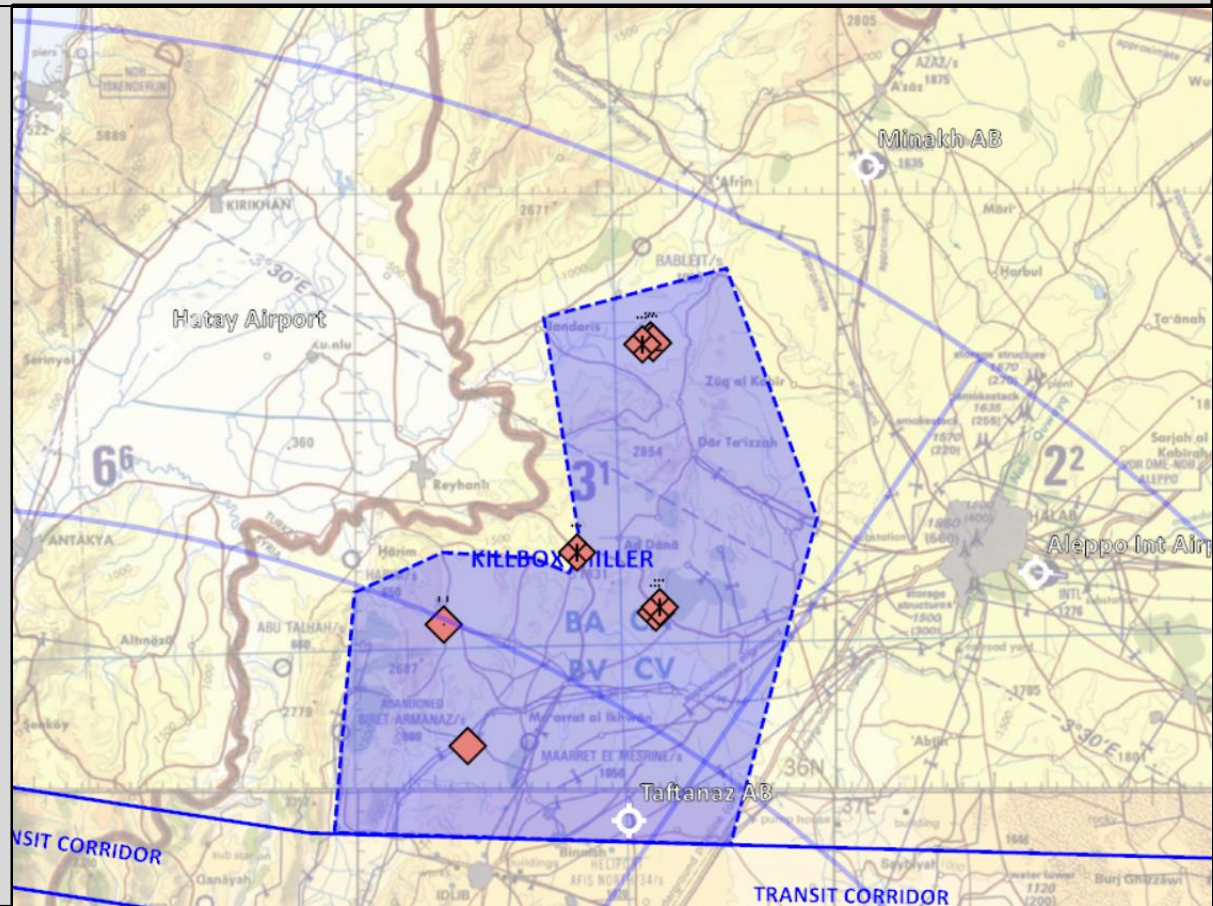

MAJOR INTEL LAST PERIOD

Northern front:

Further INTEL from KB MILLER shows significant amount of ENY units:

Mostly BTR's but also artillery and supply trucks

VIS GROUND RECOMMENDATIONS

Northern front:

VIS recommends AR missions into KB MILLER once more in a continued effort to locate and destroy ENY rocket artillery.

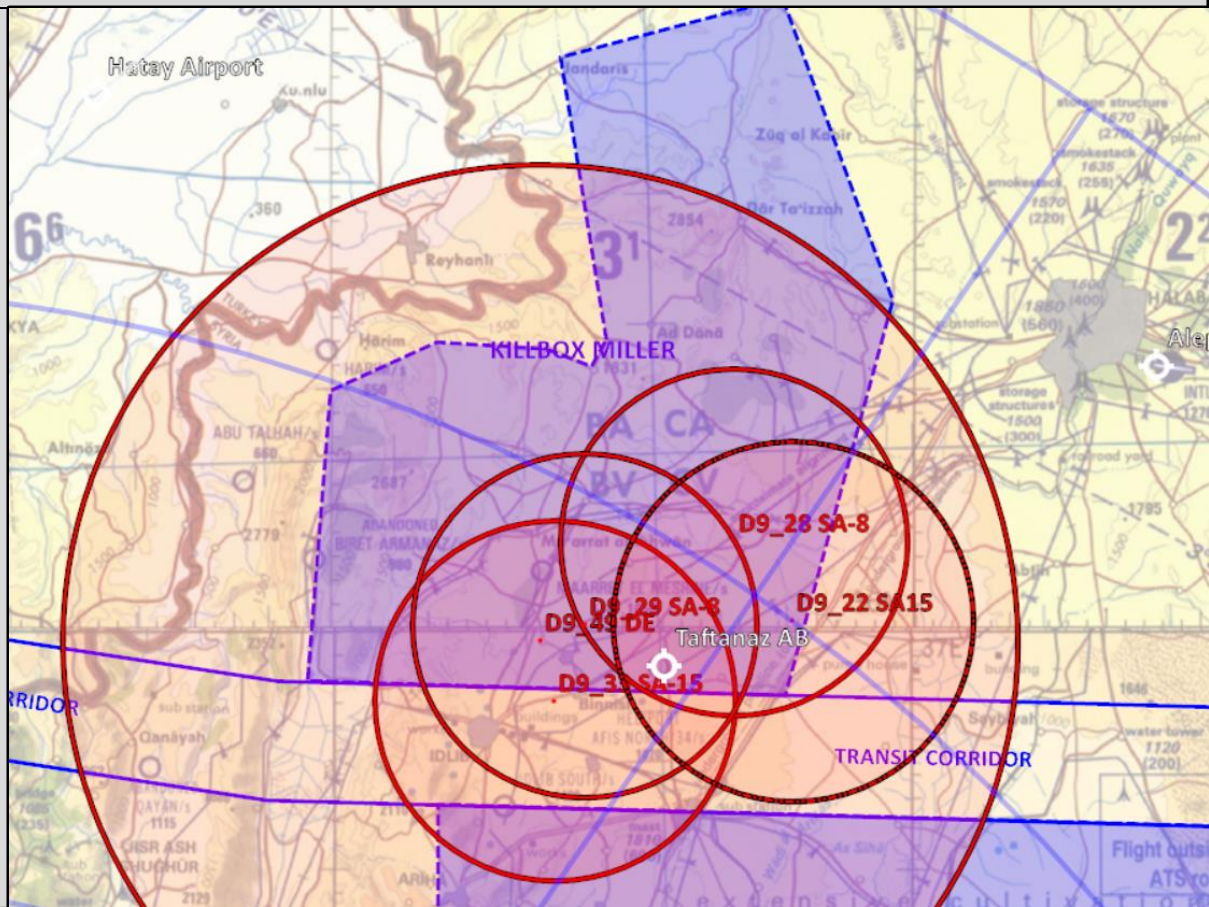

The presence of DogEar, SA-8 & SA-15 leads VIS to believe that the heavy rocket artillery is located somewhere in the south eastern corner of KB MILLER.

VIS strongly recommends using same tactics as before, A-10C as HUNTER/SEEKER and KA-50 as DESTROYERS for maximum effect

Search areas:

1. Large open areas from which MLRS can fire from connected to a road.
2. They will likely be camouflaged until firing, preparing to fire, or in alert
3. MLRS/ARTY need a logistic hub indicated by several logistical vehicles grouped for re-supplying MLRS/ARTY's.

Finding these logistics hub is vital to locating the MLRS/ARTY unit.

VIS GROUND RECOMMENDATIONS

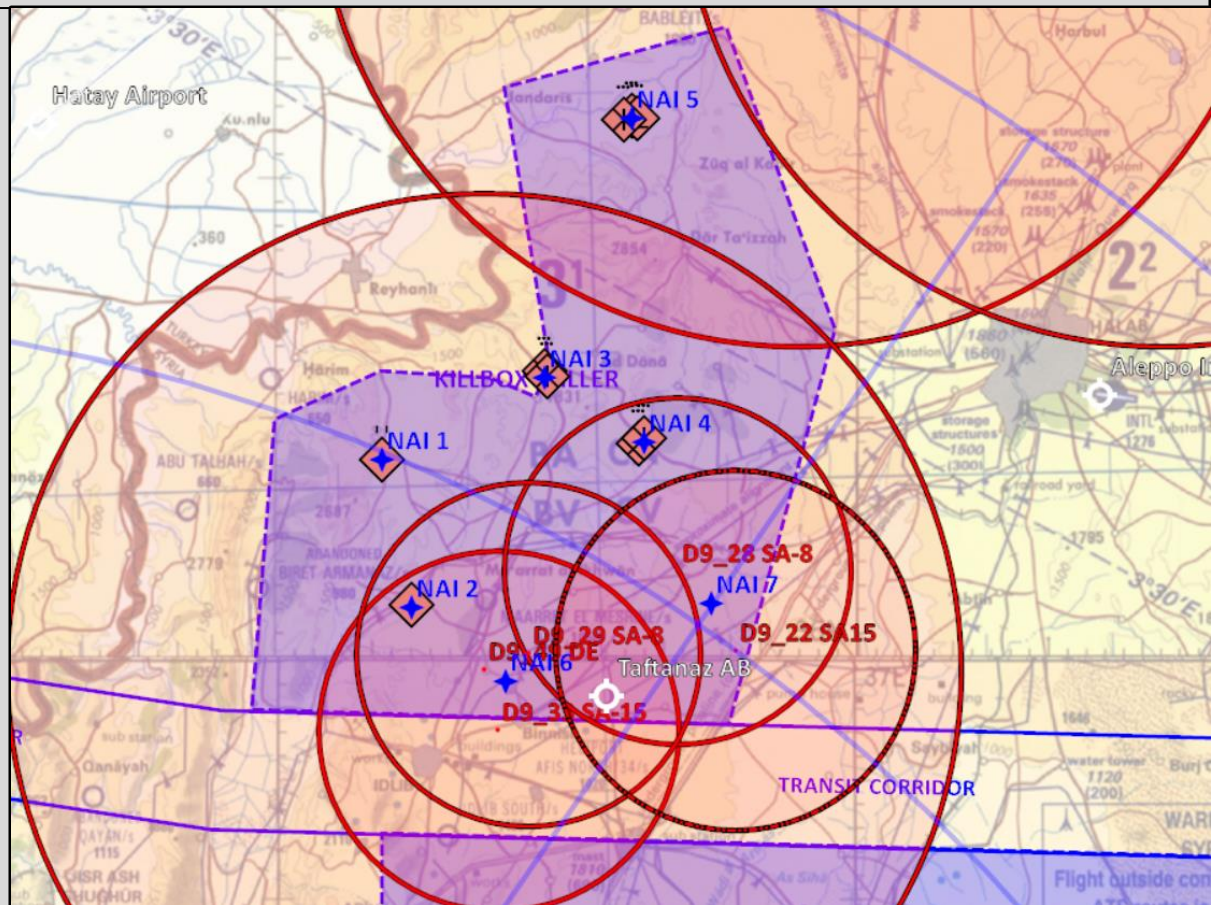

Northern front:

VIS have identified 7 Named Area of Interest (NAI) for D+10;

NAI 1	N36° 08.300 E036° 35.500
NAI 2	N36° 02.100 E036° 37.000
NAI 3	N36° 11.700 E036° 43.900
NAI 4	N36° 09.000 E036° 49.000
NAI 5	N36° 22.500 E036° 48.400
NAI 6	N36° 59.000 E036° 41.900
NAI 7	N36° 02.300 E036° 52.500

NAI 1, 3 & 4 are same locations as for D+9. NAI 5 have been slightly re-adjusted based upon INTEL from D+9.

NAI 2, 4, 6 & 7 are new locations based upon INTEL from D+9.

BDA LAST PERIOD

Syrian 1st Corps:

BDA:

KB MILLER

COBRA, BEAST & MISTY engaged ENY forces in KB MILLER. These forces being Syrian 12th Motorized Division units.

Cobra destroyed:

HQ (probably Brigade field HQ)

4x ARTY

8xsupply vehicles

1xAAA

26xBTR

BEAST destroyed:

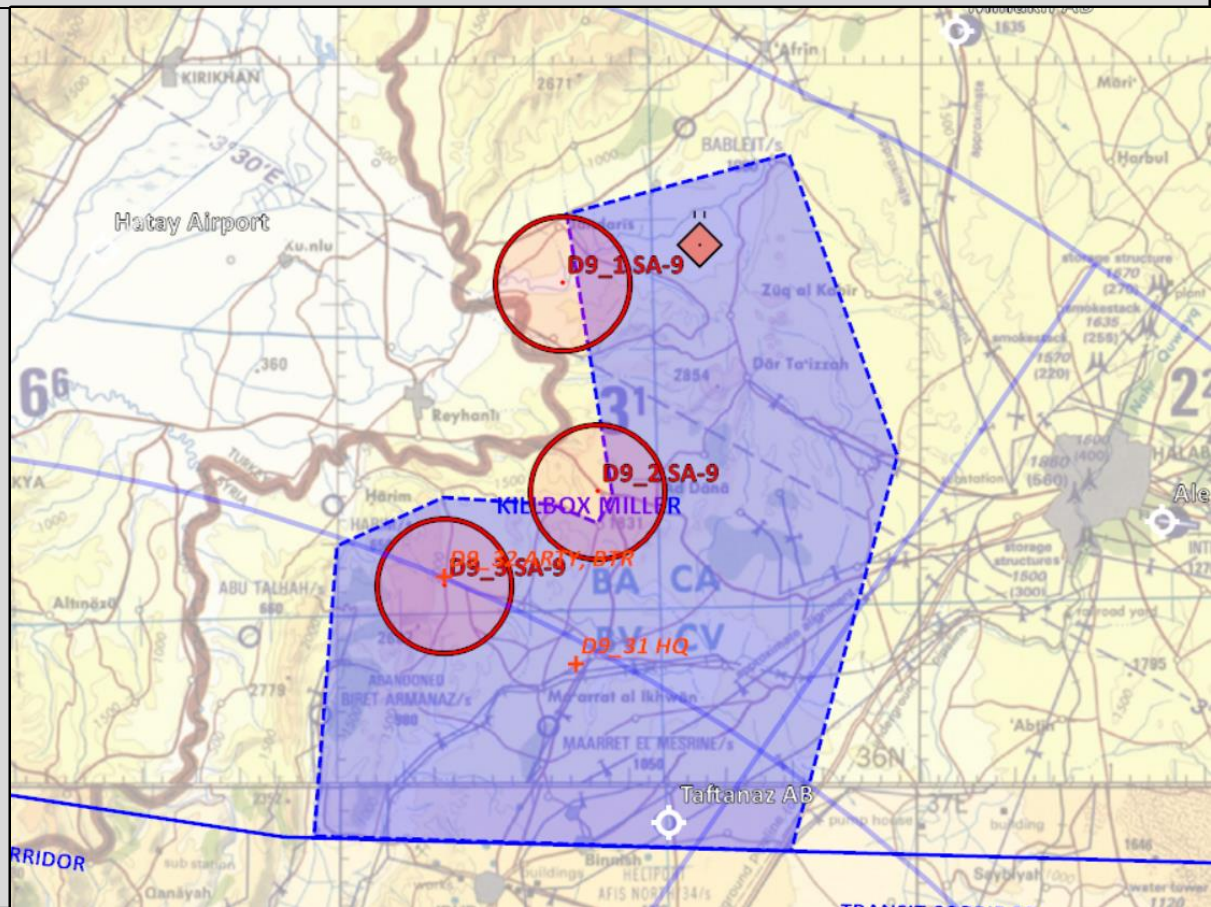

6x ARTY

2xSAM

2xsupply vehicles

MISTY destroyed:

2xSAM, 1xAAA

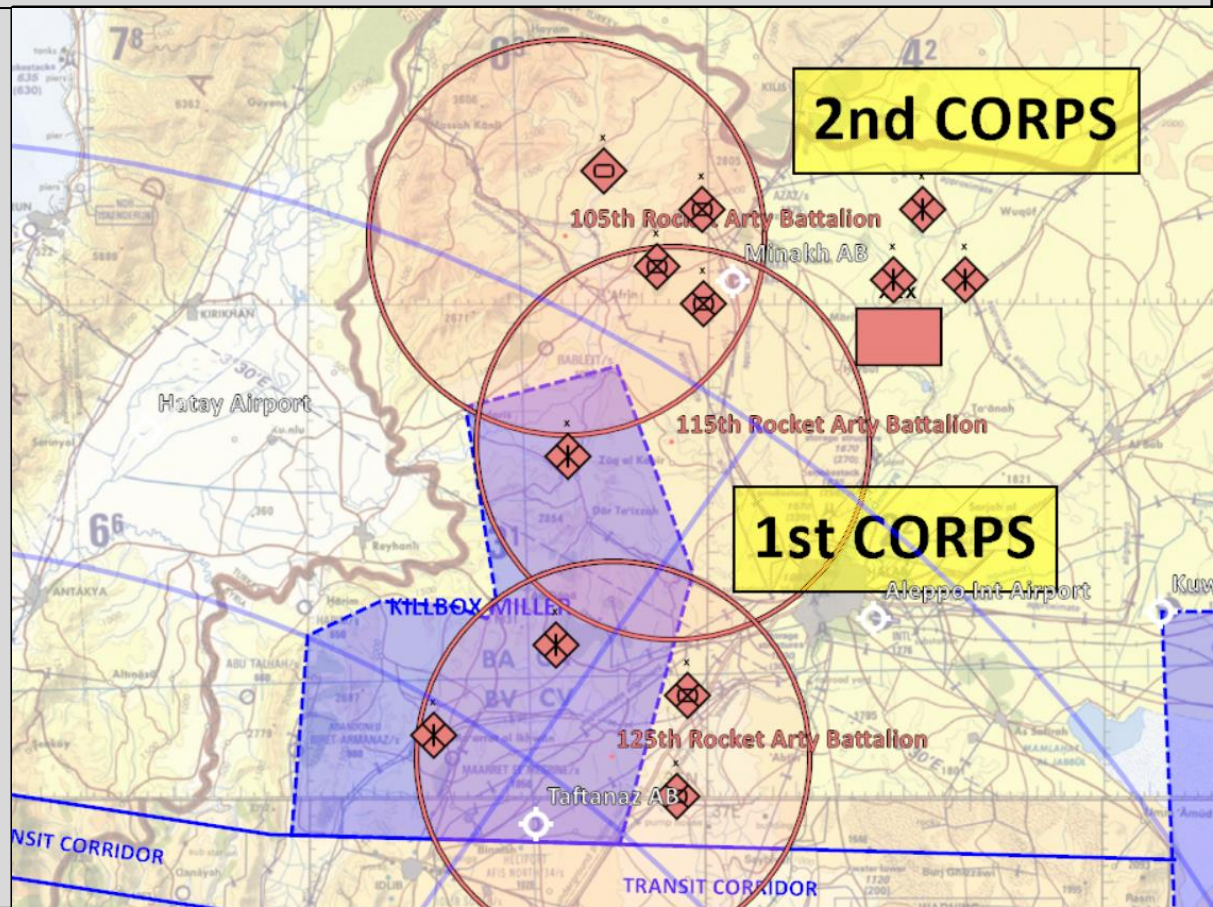

SUMMARY OF ENEMY SITUATION (facts)

All 1st Corps units have dug in hard near the front line to Turkey, and are showing no intention to give up easily. This is in line with the assesment VID INTREP D+9.

Based upon INTEL VIS believes remaining 10th Armor Division (now battalion strength) has positioned themselves west of Minakh AB area, based upon the presence of Tunguskas n that area.

Engagement during D+9 showed no signs of 11th Mechanized Division, but VIS is of the opinion that they are holding in the rear of 12th Mototrized Division which is still at almost full combat strenght

BM-21 GRAD presumed location have been plotted on the map, while URAGAN and SMERCH launchers are located further away from the Turkish/Syrian border.

SUMMARY OF ENEMY SITUATION (facts)

ENY units of 1st Corps is anticipated to dig in hard protecting their home country.

The presence of SA-15 in south eastern corner of KB MILLER gives high indication of high value targets such as HQ, 125th rocket artillery battalion which is still supported by SA-15.

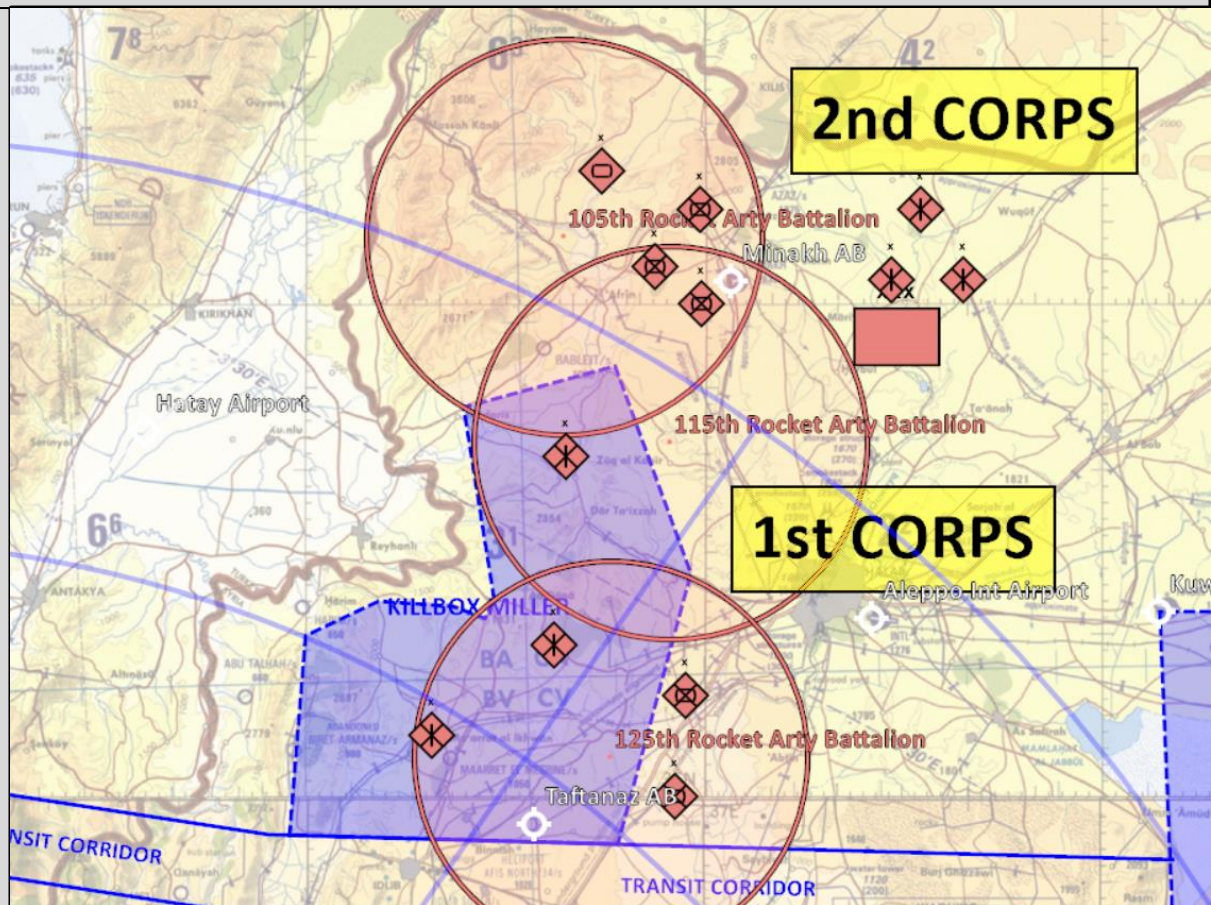

105th & 115th rocket artillery battalions do not have support from SA-15's

We can expect heavy bombardment from rocket artillery once stepping into Syria. It is vital that allied air forces neutralises these rocket artillery units as they can inflict heavy casualties on allied ground forces

NOTE!

2nd Corps doesn't not have full strength compared to a standard Corps as it lacks the following;

- Armor Division
- Air Defence Division
- Rocket Artillery Regiment

SUMMARY OF ENEMY SITUATION (facts)

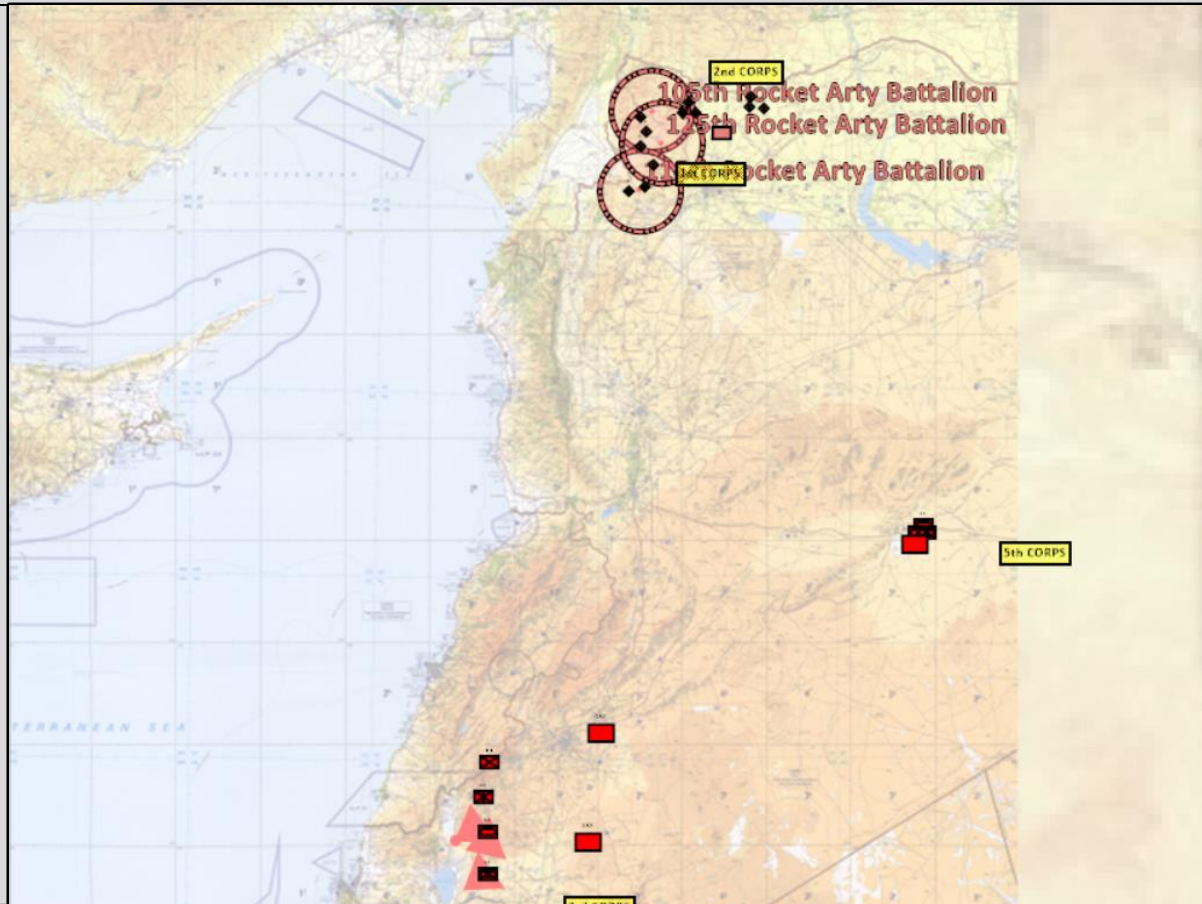

1st Corps have withdrawn from Tyrkey.

Lead elements of 2nd Corps have just been found in vicinity Minakh AB.

3rd Corps is holding strong in GOLAN Heights region and currently VIS does not hold any new intellegence of this area.

4th Corps is still believed to protecting Damaskus.

5th Corps is still believed stationary however is expected to be able to move within days if needed.

ASSESSMENT OF ENEMY SITUATION (Short term)

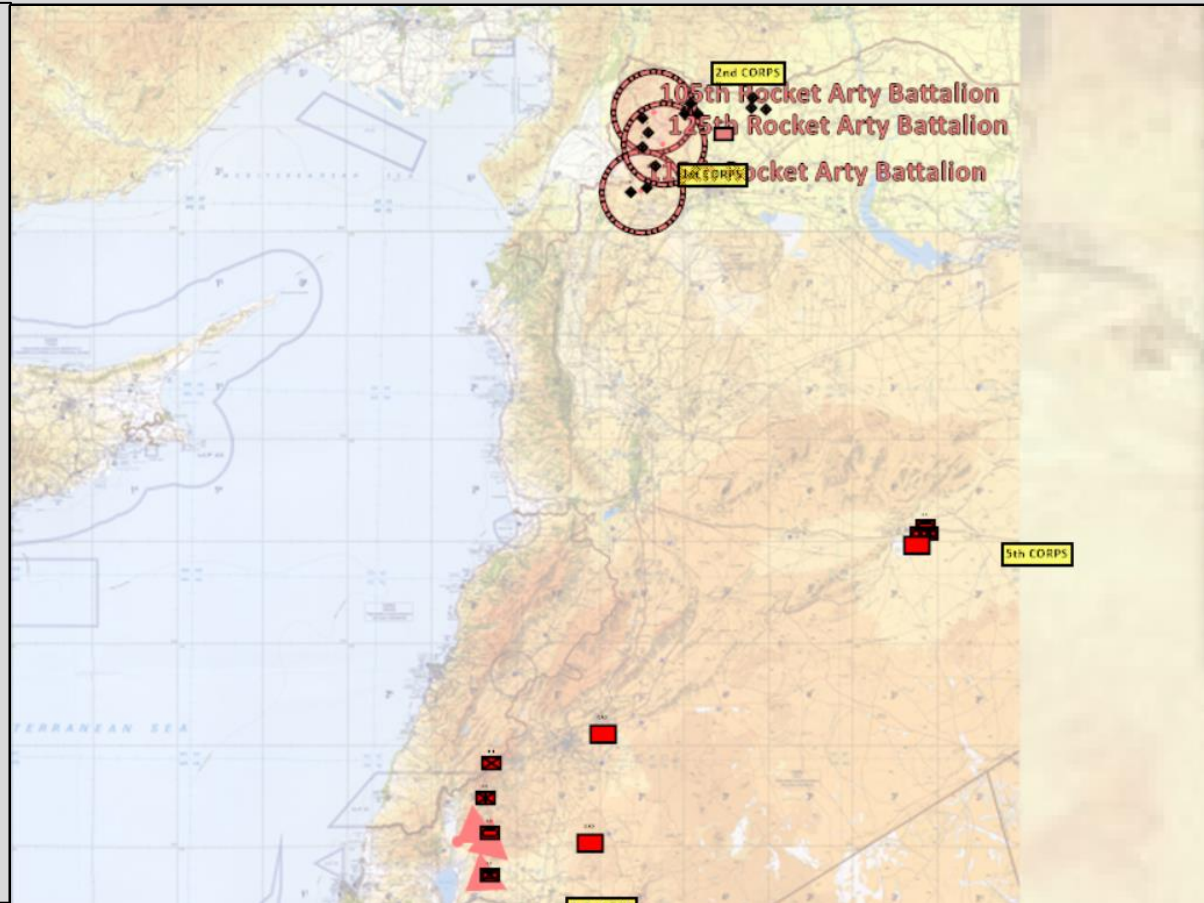

Remaining units of 10th Armored Division are heavily disoriented and have suffered so heavy casualties they cannot operate independent anymore. VIS anticipate they link up with either 11th Mechanized Division

2nd Corps is anticipated to hold it's ground now being ready to support 1st Corps elements.

3rd Corps will remain in a current hold waiting for the inevitable attack from Israel and it's allied.

4th Corps have shown no indication of movement so far and is anticipated to stay and protect Damaskus

5th Corps will continue preparing to move if needed.

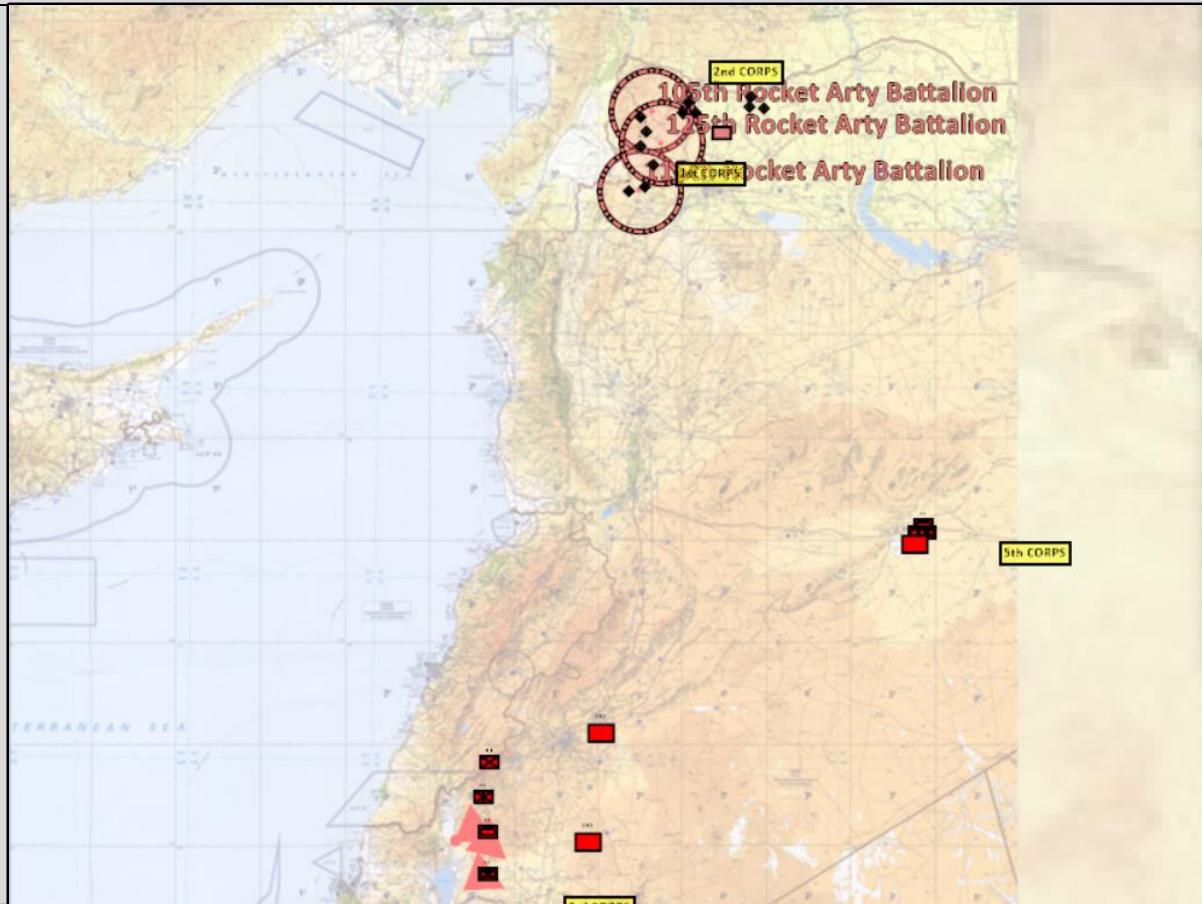

ASSESSMENT OF ENEMY SITUATION (long term)

Syrian long term goal to establish foot hold in Turkey has now vanished until they can get significant reinforcements. They only options for this is for 4th or 5th Corps to come to their aid, however currently VIS does not see this as alikely scenario.

Syria will likely try and stall any allied advances.

INTELLIGENCE GAPS

The location of rocket artillery and heavy rocket artillery battalions are of great importance to VIS as they can significantly hamper allied ground forces advances.

Are there any movement to positions of 4th Corps and 5th Corps and if so in which direction?
